

3 Port Services

One Stop Shop

Flinders Ports provides your single point of contact for the coordination of port services including tugs, pilotage, mooring labour, berth allocations, harbour services and the handling of dangerous goods for all seven Flinders Ports controlled ports.

To notify Flinders Ports of your requirements for port services simply:

- Submit a fully completed Vessel Entry Form not less than 2 clear working days of vessel arrival to the Client Services Officers/Marine Traffic in Port Adelaide. A response is activated which will determine the berth allocation, services and facilities to be provided.
- To submit electronically, visit the Flinders Ports website at;
www.flindersports.com.au
and complete the online Application for use of Port Facilities.
- Advise Client Services Officers/Marine Traffic of shipping orders by 1500 Monday to Friday. Operational requirements will be processed for towage in Adelaide and towage and mooring in the Regional Ports by 1530.

A daily shipping schedule will be processed and distributed to port operations service providers in all ports.

Outside of normal hours (Monday to Friday 0900 – 1700) agents should contact the Signal Station for any changes to the current shipping schedule in all ports.

Client Services Officers/Marine Traffic will process any changes within Flinders Ports and notify port service providers.

Pilotage Information

Port Adelaide

Port Adelaide Pilotage services available 24 hours

Pilot Boarding Ground

- 2 nautical miles south west of the Entrance Beacon
- Lat 34 deg 48' 13.81"S
- Long 138 deg 20' 48.57"E

Safe Anchorage Position

- 1 nautical mile west of the Pilot Boarding Ground
- Lat 34 deg 48' 13.71"S
- Long 138 deg 19' 35.71"E

Pilotage to Outer Harbor

Port Limit, vessels up to 300m LOA (oversize vessels by negotiation)

- Approach Channel: 14.2m
- Distance: 8 nautical miles
- Approximate time: 1 to 1.5 hours
- Keel clearance: 10% draft of vessel

Pilotage to Osborne

Port Limit, vessels up to 206m LOA

- Channel: 9.3m
- Distance: 12 nautical miles
- Approximate time: 1.5 to 2 hours
- Keel clearance: 7.5% of draft of vessel

Pilotage to Inner Harbour

Port Limit, vessels up to 206m LOA (Oversize vessels by negotiation)

- Channel depth: 9.3m
- Distance: 14.5 nautical miles
- Approximate time: 2 to 2.5 hours
- Keel clearance: 7.5% to 10% of draft of vessel (check with Flinders Ports office)

Regional Ports

- Berthing during daylight hours only most ports: (Port Pirie and Thevenard refer to Flinders Ports office)
- Departure 24 hours
- Keel clearance up to 10% draft of vessel (check with Flinders Ports office)

Security

Flinders Ports has in place security plans for its ports of Port Adelaide, Port Lincoln, Port Giles, Wallaroo, Port Pirie and Thevenard effective since 1/7/2004.

A Flinders Ports Security Access Card AND a Maritime Security Identification Card (MSIC) is required to gain entry to all of Flinders Ports' berths in Port Adelaide, Port Lincoln, Port Giles, Wallaroo, Port Pirie and Thevenard.

The Australian Government has introduced stronger maritime security laws to protect all Australians from the threat of terrorists and others who would disrupt our maritime operations. The MSIC is part of the Australian Government's stronger maritime security laws, which are called the Maritime Transport and Offshore Facilities Security Act 2003 and the Maritime Transport and Offshore Facilities Security Regulations 2003.

You could be fined if you don't display your MSIC when you are in maritime security zone. Individual fines of \$550 could apply.

Port Adelaide

Access to the inner harbour berths can be gained through a number of electronic access gates. At Berths 29, 27, 18-20 and Osborne you will find electronic entry and exit gates.

M Berth, Adelaide's only oil berth, is classed as critical infrastructure and as such has a number of security measures in place. When a vessel is berthed, a security guard controls access to the berth. When there are no vessels at the berth, access is controlled through the electronic access card.

Outer Harbor Berths 1 – 2 as well as the Signal Station and the Marine Services office can be accessed through electronic entry and exit gates located off the roundabout on Lady Ruthven Drive.

Access to Berth 8, Outer Harbor can be gained with a Flinders Ports Access Card through the electronic gate.

There are a number of dedicated berths in Port Adelaide. Port Facility Operators such as those who operate these berths are required to implement their own Maritime Security Plan and therefore control access to the berth directly.

H and K Berths in the inner harbour are dedicated to Adelaide Brighton Cement and access can only be gained by arrangement with Adelaide Brighton Cement.

Penrice Soda Products operates a dedicated berth also in the inner harbour. Access is controlled directly by Penrice.

Berths 6 & 7 at Outer Harbor are dedicated to DP World Adelaide, the Adelaide container terminal operator. Access to these berths is controlled directly by DP World Adelaide through on site security guards by arrangement only.

Berths 3 & 4 at Outer Harbor are dedicated to AAT Pty Ltd and access can only be gained by arrangement with AAT.

Port Pirie, Port Lincoln, Thevenard and Wallaroo

Access to the Flinders Ports berths in Port Pirie, Port Lincoln, Thevenard and Wallaroo can be gained through an electronic access gate.

Port Giles

Access can be gained to the Flinders Ports berths in Port Giles with a Flinders Ports Access Card and a key or PIN code.

Harbour Services

All Ports

Bunkers

Fuel oils, distillates and lubricating oils are available and can be supplied by road tanker. Permission to bunker is given by the Client Services Officers/Marine Traffic on receipt of a Bunkering Notice.

<http://www.flindersports.com.au/shipping2.html>

Quarantine Waste Disposal

- Garbage is collected by a contractor whose vehicles call at all ships from 1000 hours each day in Port Adelaide and by request in Regional Ports.
- Oily water and sludge may also be discharged into road tankers for disposal.
- Facilities for rat riddance are available in accordance with international health requirements, including inspection and fumigation services.

Welding

Permission to carry out hot work aboard vessels by ship's staff or port engineering firms is given by the Client Services Officer/Marine Traffic on receipt of a Hot Work Notice.

<http://www.flindersports.com.au/shipping2.html>

Water & Power

- Fresh water available at all berths at 15 to 100 tonnes per hour depending on berth
- Electric power at 415/240 Volts (415V, 3 phase, up to 60 amps) is available from supply points at most commercial berths.

Undercover storage

At most berths up to 3000 square metres (Port Adelaide only): Various lease options available.

Agents can notify requirements for water, power and quarantine waste on the "Vessel Entry Form" which must be filled out 2 working days prior to vessel entering port.

Towage Services

Port Adelaide Tug Usage Guidelines Only

Outer Harbor

L.O.A of vessel	Manoeuvre	Number of tugs
Up to 90 metres	IN/OUT Not Turning	Nil
Up to 90 metres	IN/OUT When Turning	1
90 metres to 120 metres	IN/OUT	1
Over 120 metres	IN/OUT	2
Over 206 metres	IN/OUT Not Turning	2
Over 206 metres*	IN/OUT When Turning	2 Z peller Tugs or 3 Tugs

- N.B. Livestock and Car Carriers exceeding 183 metres may require 3 tugs to turn in strong wind conditions. Vessel with bow thrusters and regular calling vessels may have varying tug usage after assessment
- Car Carriers swinging on departure with bow thrusters exceeding 1000hp and wind less than 15 knots may require 1 tug

*Vessels over 206m may use 2 Z peller tugs in lieu of 3 tugs when turning

- N.B. Bow thrusters may replace tugs on regular calling vessels after assessment
- Vessels over 183 metres may use 2 Z peller tugs in lieu of 3 tugs when turning

Minimum tug requirement may be reduced after assessment of bow thrusters by Pilots

Inner Harbour and Osborne

L.O.A. of Vessel	Manoeuvre	Number of tugs
Up to 90 metres	IN/OUT Not Turning	NIL
Up to 90 metres	IN/OUT When Turning	1
90 metres to 120 metres	IN/OUT	1
120 metres to 183 metres	IN/OUT	2
Over 183 metres	IN/OUT Not Turning	2
Over 183 metres	IN/OUT When Turning	2 Z peller Tugs or 3 Tugs

Labour Ordering Times

Labour will only be booked when a berthing application is lodged with Flinders Ports 2 working days prior to the vessels arrival. Labour includes Mooring, Launches and Pilots.

Port Adelaide

Ordering Times: 0000-2400 hours

Alteration of Booking must be made during Normal Hours

Monday to Friday with at least 3 hours notice from the ordered time to avoid cancellation penalties.

Outside Normal Hours

- Saturday/Sunday/Public Holidays alteration of booking must be made with at least 5 hours notice of the ordered time to avoid cancellation penalties.

Regional Ports

0000-2400 hours

Ordering Times: Normal Hours

- Monday to Friday. Alteration of booking must be made with at least 3 hours notice from the ordered time to avoid cancellation penalties.

Ordering Times: Outside Normal Hours

- Labour ordering for weekends and public holidays must be completed by 3pm the preceding working day. Labour for Monday up to 12noon (or Tuesday upto 12 noon if Mon is a public holiday) must also be ordered by 3pm. Alterations* may be made by giving Flinders Ports at least 5 hours notice to avoid cancellation penalties. Subsequent labour availability will be dependent on timely notification.

- *Alterations made outside normal hours in regional ports incur a 1 hour labour fee for the supervisor to place new orders for labour.

Handling of Dangerous Goods

Procedures for the Loading, Discharging, Transhipping of Dangerous Cargoes of Dangerous Goods Class 1 (i.e. Explosives) and Class 5.1 (Ammonium Nitrate).

All dangerous cargo details i.e. U.N. number, IMDG Code and description to be delivered to the Client Service Officers/Marine Traffic at least 48 hours before vessel arrival. The Client Services Officers/Marine Traffic will then advise the agent what precautions or actions are to be taken.

N.B. The handling and transport of dangerous cargoes will be in accordance with the Australian Standard AS3846-2005.

Procedures for the Loading/Discharging/Transhipping of Dangerous Cargoes of Dangerous Goods Class 2, 3, 4, 5, 6, 8 or 9.

All dangerous cargo details i.e. U.N. number, IMDG Code and description to be delivered to the Client Services Officers/Marine Traffic at least 48 hours before vessel arrival by the ship's agent.

The Client Services Officers/Marine Traffic will then advise what precaution/action to be taken by ship/wharf/transportation. Class 1, Class 5 and Class 7 cargoes will be handled strictly in line with the Australian Standard AS3846-2005.

U.N. number: United Nations Number
IMDG Code: International Maritime Dangerous Goods
